NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contracter, subcontractor, labarer, supplier ar other person or entity who helps te improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of tha sale usad to satisfy what you owe. This can happen even if you have paid your contractor in full if tha contractor's subcontractors, laborers or suppliers remain unpaid.

Ta preserve their rights to file a claim or lian against your property, certain claimants such as subcontractors or materials suppliers are aach required to provide you with a document called a "Preliminary Notica." Contractors and laborors who contract with owners directly de not hava to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpese Is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In ordar to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes e recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your preperty is 90 days after substantial completion of your project.

Caution: Phishing Attempt Threat Advisory– In recent days, we've learned of a new phishing attack that attempts to draw the attention of recipients with the subject line Issue with your DBE Certification. Users are advised of a complaint regarding their DBE certification. In the event that you receive a message fitting this description, close the message immediately and report it as spam. Contact your certifying agency if you have concerns. - Click here to see example of phishing.

Where there is a DBE goal on a contract, a Bidder must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of Appendix "A" to Part 26, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

*****DBE CERTIFICATION DOES NOT EXPIRE*****

NOTE: Please note that the California UCP (including Caltrans) does not issue DBE Certificates as evidence of certification. A copy of a printout from the DBE Database should be sufficient for the bid package.

If you have any questions or need verification of a DBE firm, please call our office (916) 324-1700, or the DBE's own Certifying Agency.

Caution: The DBE regulation allows for firms to be suspended for various reasons, including death or incarceration of majority owner or other non-compliance with documentary requirements. The database will indicate if a firm is suspended. Therefore, prior to contracting with a DBE please ensure you have the most current information about the DBE for your good faith effort paperwork.

The North American Industry Classification System (NAICS) Code:

The NAICS Code is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. Use the U.S. Census Bureau NAICS Search page to determine the NAICS Code.

The Work Codes supplement NAICS Codes that are used by the UCP during DBE certification process. It is classification scheme of equivalent detail and specificity, describing work a DBE firm states it can perform, whether on initial certification or when a new type of work is added to an existing certification.

These codes provide a general overview of the process used to determine code assignment, which in part considers description of work and any licenses necessary to prove control of the business by a disadvantaged owner.

The Work Code Template provided above is not an all encompassing list of work DBE firms perform and should be used as a guide only. DBE firms can always request their certifying agency (any time) to review their business activities and add or remove codes as and when necessary. DBE Firms are required to be certified with appropriate codes prior to bid date.
