Subject: Redetermination / Extension.

Dear Mr. McMillan:
After careful review of our bid proposal and the Subcontractor List form that we submitted we found that all the columns 1 through 4 has been **completed in full**, please let me know in what section of the standard specification mention that if a contractor make a mathematical error in calculating the percentage of subcontractor will be consider a nonresponsive.
We are requesting that you reconsider this issue and award the project to Rakan Inc based on the fact that we did complete all columns within the time specified and per the bid proposal form.

Please review the second bidder and the third bidder subcontractor list and you will find that neither of them completed columns 4 as requested in the bid proposal all items should be listed and description of each item should be listed.

Please consider this letter as a request to extend the award period until we resolve this issue.

Feel free to contact me at 949-698-9872.
