Reference: Contract 08-043514: Construction of State Highway in San Bernardino County at Hinkley Rd from 2.4 miles west of Hidden River Rd. to 0.7 mile east of Lenwood Rd.

Dear Mr. McMillan:

We are writing this letter in response to your December 16, 2014 letter regarding the protest by Security Paving Company Inc. ("Security") of the bid of Skanska-Teichert a Joint Venture ("Skanska-Teichert") for Contract 08-043514, commonly referred to as Construction of State Highway in San Bernardino County at Hinkley Rd from 2.4 miles west of Hidden River Rd. to 0.7 mile east of Lenwood Rd. ("Project")

On November 14, 2014, Skanska-Teichert submitted a responsive bid for the Project which listed Quality Hydroseed & Restoration ("Quality") as its subcontractor who would perform "Erosion control and related." In accordance with Caltrans' procedures, Skanska-Teichert submitted its 24-hour subcontractor listing the following day, adding the following bid item numbers for the work to be performed by Quality: Bid Item #17 (Temporary Soil Binder);Bid Item #66 (Move-in/Move-out Erosion Control); and Bid Item #67 (Hydroseed).

Security protested Skanska-Teichert's bid, arguing that Skanska-Teichert's subcontractor listing on bid day was materially different from its 24-hour subcontractor listing. Security claims that Bid Item #17 (Temporary Soil Binder) is not related to erosion control. As such, Security argues, Skanska-Teichert improperly changed the scope of work to be performed by Quality.

Security's argument fails to recognize the nexus between the bid numbers in Skanska-Teichert's 24-hour submittal and the work described in its subcontractor listing. The description of the subcontracted work as "Erosion control and related" is responsive and accurate. When the description of work at the time of bid corresponds to the items listed on the 24-hour submittal, and a nexus is found between those bid item numbers and the work described, the bid is responsive. In this case, Bid Item #17 (Temporary Soil Binder), Bid Item #66 (Move-in/Move-out Erosion Control), and Bid Item #67 (Hydroseed) sufficiently correspond and are related to the work described as "erosion control and related."

Caltrans' Standard Specifications demonstrate that there is a nexus between Temporary Soil Binder, Erosion Control, and Hydroseed. Section 13-S.03J Temporary Soil Binder of the 2010 Standard Specifications states "***Apply temporary soil binder under section 21-1.03E***." Section 21 is titled Erosion Control, and 21-1.03 is titled Hydroseed and Hydromulch. These Specifications require Temporary Soil Binder to be applied with the same equipment and methods as Erosion Control, Hydroseed, or Hydromulch.

The nexus between Temporary Soil Binder and Erosion Control scopes of work is also reflected by the fact that the same subcontractor preforms both portions of the work using the very same personnel, equipment, and methods.

Caltrans has historically and consistently found a nexus exists between Temporary Erosion Control items, such as Temporary Soil Binder, and Permanent Erosion Control items, such as Hydroseeding. Attached are copies of 2 bid documents (08-3401U4 and 11-257154) that Caltrans recently awarded which identified the portion of work to be performed as "***Erosion Control and Related***" on the bid-day listing. The subsequent 24-hour subcontractor listing identified bid items for Temporary Erosion Control. Since Caltrans awarded these projects to the low bidder, it found the bids to be responsive. These bid documents demonstrate that there is a nexus between the Temporary Erosion Control and Permanent Erosion Control.

Security mischaracterizes the past bid rejections of Gordon N. Ball to support its claim. In both of these cases, the listed subcontractor was initially disclosed as performing a "(partial)" scope of work. Then on the 24-hour submittal, the contractor increased the subcontractor's portion of work to 100%.

1) Contract 04-1SS024 had many irregularities that, when considered cumulatively, made the bid non-responsive. The contractor listed on its bid day submission "Erosion Control ***(Partial)***" and then on its 24-hour submission listed bid items at 100%. Caltrans' rejection letter stated in part, "The change from partial to 100% expands the scope of work to be performed by RMT is inconsistent with the original Subcontractor list, is a material error and renders the bid nonresponsive."

2) Contract 04-2G8604 also had many irregularities. On bid day, Ball identified Selby's Erosion Control (Selby's) as performing "Erosion Control ***(partial)***," with no mention of related work. Ball's 24-hour submittal impermissibly expanded the portion of work to 100%, thereby

expanding the scope of the subcontracted work. In addition, the items of work listed do not require the same equipment or methods to accomplish the work.

Both of these examples are distinguishable from this case, as Skanska-Teichert has not increased Quality's scope from "partial" to "100%." These cases do not support Security's argument and its reliance on them is misplaced.

Security argues that "Bid defects cannot be waived if they could have affected the amount of the bid or if they resulted in a bidder having an unfair advantage." Both Security and Skanska-Teichert listed Quality for the same scope of work at the same price. Quality's quote was included in the DBE submissions of both Security and Skanska-Teichert. Skanska-Teichert cannot possibly have gained an unfair advantage by its description of Quality's work in its bid-day subcontractor listing.

Skanska-Teichert shares Security's desire for consistency in the bidding process and a level playing field for all contractors during the bidding stage. The best way to accomplish this is for Caltrans to consistently apply its historic policy of allowing contractors to list general descriptions of work on its bid day submissions, and provide the specific item numbers and percentages on the 24-hour listing. As long as there is a nexus between the description of the portion of work provided on bid day and the item numbers on the 24-hour submittal, there is no material inconsistency between them. The subcontractor listing laws were never intended to allow disgruntled high bidders to comb through the bid of the lower bidders, in an attempt to mischaracterize how the subcontractors were listed, in hopes of getting the lowest bid thrown out. This is the most blatant attempt to gain an unfair advantage that can be imagined.

Skanska- Teichert has fully complied with the requirements as set forth by the governing laws and Contract Specifications, and submitted a fully responsive bid. There is absolutely no merit in Security's protest nor does it contain any factual or legal support. Skanska-Teichert respectfully requests that the Department rejects their protest and award the contract to the lowest responsive bidder, Skanska-Teichert a joint venture.

If you have any questions or need additional information, please contact me at (951) 684-5360.

Sincerely,

Jeff Langevin

Skanska-Teichert, a Joint Venture
