NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recordor which then becomes a recordod lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

GOOD FAITH EFFORTS DOCUMENTATION - DBE PAGE 3 OF 3 (cont'd)

6. List efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. Identify the DBE assisted, the information provided, and the date of contact. Submit copies of supporting documents.

- All DBEs solicited by email were sent a copy of the bid item list, as well as a link to the Caltrans website, where plans and specifications were available for download. They were given our company contact information and the names of our estimators, as well as suggested items of work for bidding.
- DBEs solicited by fax were sent a written copy of Caltrans' website address, our contact information and suggested items of work.
- All solicitations (both emailed and faxed) encouraged DBEs to register on the Caltrans website under the "Opt-in" link.

7. List efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, materials, or related assistance or services, excluding supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate. Identify the DBE assisted, the assistance offered, and the date. Provide copies of supporting documents.

- All of Granite's advertisements and direct email solicitations offered assistance with bonding, insurance or supplies, as well as provided a link to the US Small Business Administration's bonding assistance site: http://www.sba.gov/content/contractors#
No DBEs requested any bonding assistance from Granite.

8. Include additional data to support a demonstration of good faith efforts. Submit additional information if necessary.

- In an effort to maximize our DBE utilization, Granite listed 3 DBE subs despite having non-DBE subs with lower prices.
Granite is also renting PCMS boards from a DBE supplier despite having lower prices from other suppliers.
See Exhibit C for documentation.
