Comments:

Our bid is conditioned on:

1) A mutually acceptable form of purchase order or contract document.

Some clauses of importance to us are realistic payment clauses which protect both parties, guarantee us that we get paid promptly for our work and eliminate unnecessary paperwork; indemnification clauses which equitably allocate risk to the parties, insuring that you are indemnified for the negligent acts of A-C Electric Company, without A-C indemnifying or defending you for your negligence; scheduling clauses which give us adequate time to perform our work efficiently and safely, compensate us for acceleration required for reasons outside our control, and limits any requirement for us to accelerate without compensation to our failure to perform in meeting a reasonable schedule.

In the event that we are unable to reach a mutually acceptable contract utilizing Contractor's proposed document, this bid is conditioned on the use of Consensus DOCS 750 or 751, documents drafted and agreed to by the various construction trade associations with the intent to be fair to the contractor, subcontractor and owner.

2) As an interim measure, while we are working on a mutually acceptable contract document, we will perform work and supply material upon receipt of a written authorization to do so with the assurances that we will be paid timely for the work done.

3) If you are one of the more than 50 Contractors with which we have worked out a mutually acceptable contract, or an addendum to your standard contract, our bid is conditioned to it.

Legal venue of this project will fall under the jurisdiction of the state and county in which the work is performed.

A-C Electric Company is signatory to collective bargaining agreements with the International Brotherhood of Electrical Workers. This bid is based on doing the work of our bid items with our own forces who are signatory to the IBEW or selected subcontractors. We will cooperate with you in resolving labor problems involving our work and the IBEW resulting from claims or grievances made by labor unions to which you are signatory. We will provide representation and bear our own costs for doing so. We will not indemnify nor reimburse you for costs you incur resulting from such claims or grievances.

State of CA, CALTRANS DBE Program Good Faith Effort Summary

Outreach Efforts Summary / Narrative:
Agee Construction Company identified the appropriate search engine to search for DBE subcontractors/suppliers for Construction on State Highway in Tulare County From 0.4 Mile West of Road 152 to 0.7 Mile West of Road 160. Agee attempted to post on the US Dept of Commerce MBDA bid matching system but due to website maintenance the system isn't available. Agee sent solicitation to Lamar Heystak with US MBDA who agreed to distribute to their constituents. When US Dept of Commerce MBDA distributes the opportunity those companies are notified of the bid opportunity and bid information. It cannot be determined how many of the companies that were matches are certified as DBE companies, however, the companies that were considered matches are either MBE or WBE companies that do work in the specified region and would potentially be certified and/or eligible to be certified as a DBE contractor. Agee also posted on the US SBA Subnet. US SBA Subnet's exposure is unknown but it is an industry practice to advertise DBE projects on the US SBA Subnet. Agee also advertised in two other Eldridge Bid Reporter publications that outreach to DBEs. Eldridge Bid Reporter publications have 3000+ distribution made up of SBE/DVBE & DBEs. DBEs are roughly 50% of the distribution. Agee then searched the appropriate DBE databases (CUCP & US SBA) to identify potential DBE subcontractors/suppliers that performed the specified services. The Agee list contained 170 potential subcontractors/ suppliers. The list includes DBE companies from the CALTRANS Opt-in link that had opted-in to the project for solicitation. Agee sent direct solicitations by fax to 83 potential subcontractors/suppliers that were located in a reasonable proximity to the project. Then Agee sent direct email solicitations to **ALL 170** potential subcontractors/suppliers. Of those 170 potential subcontractors/suppliers, there were 13 emails that bounced (bad emails) and 3 companies declined the opportunity by unsubscribing to the email list. Agee followed up by email at a later date with **ALL 170** potential subcontractors and by phone with the DBE companies that were in close proximity of the project, as wells as, stayed in close contact with DBEs that had questions or had trouble obtaining the bid package.
included:

- Contacted local DBE assistance organizations to obtain a DBE list.
- Solicited Potential DBE Subcontractors/suppiers by fax/email
