ATTENTION

CONTRACTORS, SUBCONTRACTORS, & INTERESTED PARTIES

In August, the California Department of Transportation (Caltrans) is holding an outreach event to inform the business community about the contracting opportunities associated with the San Francisco-Oakland Bay Bridge (I-80) **West Approach Seismic Retrofit Project**. The West Approach Project (Caltrans Contract Number 04-0435V4) consists of reconstructing the main line Interstate 80 and on and off ramps from Fifth Street to the Cable Anchorage Structure in San Francisco.

This event will provide an opportunity to learn about the scope of the project, the contract requirements, and will provide a forum for prime contractors, subcontractors, suppliers, manufacturers, and other businesses to meet and network.

The bid opening for this estimated $225 million dollar project is scheduled to occur in October 2002. The contract has a 3% Disabled Veteran Business Enterprise (DVBE) goal. Additionally, Caltrans, per the mandate of Governor Davis' Executive Order, is seeking an overall Small Business Enterprise (SBE) participation goal of 25%. Therefore, it is expected that the prime contractors will comply with the above goals. For assistance with SBE or DVBE certification, contact the Department of General Services at (916) 322-5060 for SBE information or (916) 375-4940 for DVBE information.

For questions about the event, please call the West Approach Outreach Hotline at (800) 517-8335 or send an e-mail to inquiries@pamsf.com. Updated information can also be found on the Caltrans website at www.dot.ca.gov/hq/esc/tollbridge/index.html.

The event will be held:

WEDNESDAY, AUGUST 21, 2002
5:30 p.m. - 9 p.m. (Presentation begins at 5:30 p.m.)
Marriott Hotel
1800 Old Bayshore Highway
Burlingame, CA
