MBDA Business Centers

Minority-owned firms seeking to penetrate new markets — domestic & global — and growing in size and scale, can access business experts at a MBDA Business Center. Whether it's securing capital, competing for a contract, identifying a strategic partner or becoming export-ready, your success is our priority.

The Centers are located in areas with the largest concentration of minority populations and the largest number of minority businesses. The Centers are staffed by business specialists who have the knowledge and practical experience needed to run successful and profitable businesses. Business referral services are provided free of charge. However, the network generally charges nominal fees for specific management and technical assistance services.
