7. Production/fabrication scheduling considerations may require the D.S. Brown Company to produce and invoice the quoted materials earlier than the buyer's required shipment date. It is the responsibility of the buyer to submit for "payment for stored materials", as our standard payment terms apply regardless of whether the materials are being "stored" or have been shipped. Should the buyer request the D.S. Brown Company proceed with manufacture, only to later delay the delivery date and request that the material be stored at our facility, storage fees will be invoiced at the rate of 1% of the contract (purchase order or signed quotation) value per month until materials have been shipped.
8. The D.S. Brown Company will not be responsible for delays caused by strikes, fires, accidents of whatever cause, domestic or foreign wars, or any other causes beyond its control.
9. *Steel, chemical and/or petroleum based product pricing used within this estimate is based on current material availability and costs plus applicable surcharges as of the date of this quotation. Due to the inherent volatility in steel plate, chemical and petroleum based product costs (both material and surcharges), the D.S. Brown Company reserves the right to modify pricing at the time of "release to fabricate" to offset any additional cost increases published after the date of this quotation that are above what was used in this estimate.*
10. Should seller be ordered to proceed with engineering, if required, and/or production of this material by buyer and subsequently have <u>part or all of that order</u> cancelled by buyer, seller shall be entitled to reimbursement for all reasonable costs incurred up to the time of cancellation <u>for those items</u>.
11. The D.S. Brown Company reserves the right to subcontract work to third parties.
12. The above items are quoted as a package and individual items cannot be broken out.
13. The D.S. Brown Company's steel fabrication facility is AISC certified category "CPT" Bridge and Highway Metal Component Manufacturer, with optional endorsement "P" (sophisticated paint system).

<u>INCLUSIONS:</u>

1. Freight (see price listed above). Maximum of ONE shipment.

NAICS (2007)	Description
561612	Security Guards and Patrol Services

Your DBE certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the CUCP's website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to ensure your continued DBE status, you are required to submit an annual No Change Declaration Form (which will be sent to you) along with supporting documentation. If no changes are noted, then your DBE status remains current. If there are changes, Metro will review to determine continued DBE eligibility. Please note, your DBE status remains in effect unless Metro notifies you otherwise.

Should any changes occur that could affect your certification status prior to receipt of the No Change Declaration Form, such as changes in your firm's name, business/mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately. Failure to submit forms and/or change of information will be deemed a failure to cooperate under Section 26.109 of the Regulations.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. Should you have any questions, please contact us at 213-922-2600. For information on Metro contracting opportunities, please visit our website at www.metro.net.

Sincerely,

Marilyn White
