Letter No. 05.03.01-000719

Michael Flowers
Project Executive
American Bridge/Fluor Enterprises, a JV
375 Burma Road
Oakland, CA 94607

Dear Michael Flowers,

Supplemental Notice of Potential Claim No. 001

We are in receipt of ABF-CAL-LTR-000246, dated August 6, 2006, regarding electrical information for tower elevations 50.30 to 83.00. The Contractor has requested that the Department provide a coordinated design for the tower at elevation 53.85, incorporating structural, mechanical, and electrical components. The coordinated design requested consists of the contract documents, processed Change Orders, and Authority to Proceed provided in various RFI responses. Additional Change Orders are in process to incorporate these RFI responses that result in a change in the contract documents.

The Department acknowledges that Bleyco, Inc. has incurred additional costs to detail the electrical information for the tower at elevation 53.85. Change Order 042S1 has been identified to provide compensation for this additional detailing effort.

In addition to the information requested by the Department in State Letter 05.03.01-000130, dated February 08, 2007, please provide a detailed cost accounting associated with this specific tower location.

Your attention to this matter will facilitate providing compensation for the additional work.

Sincerely,

GARY PURSELL
Resident Engineer
