RE: CONSTRUCTION WATER – TEHACHAPI BOULEVARD RAMPS PROJECT

Dear Mr. Dhillon,

Pursuant to our telephone conversation, TCCWD anticipates being able to supply construction water for your Tehachapi Blvd. project, subject to the following conditions:

1. Our nearest connection point is located on the west side of Tehachapi-Willow Springs Road, at Abajo Road.
2. We can provide a 2" construction meter on an existing turnout at this location. Should the contractor desire to place an overhead tank trailer, an alternate location will be required.
3. An "Application for Water Service" will need to be completed.
4. A deposit of $200.00 is required (credited against water use) along with an additional application fee of $35.00 – total = $235.00.
5. Water used will be billed at rate of $1,385.00/acre foot.
6. Ability to provide service may be impacted by any emergency drought measures that may be in place at time of application. Currently, we have no drought restrictions on providing water service.

Should you desire any additional information, please do not hesitate to contact me.

Regards,

TEHACHAPI-CUMMING COUNTY WATER DISTRICT

Tom Neisler
Operations Manager
