Here are some examples of how to convert a rent differential from a conventional dwelling, to a down payment and rent differential for the purchase of a mobile home, and the rent of a mobile home park space.

Example 1 - Little or no rent with KFC (not considered hardship)

| RD Per Your Computation <br> This is the maximum we will pay - it does not change in <br> this computation | $\$ 36,000$ |
| :--- | ---: |
| Economic Rent (NO utilities added) | $\$ 550$ |
| Price of Mobile Home Purchased |  |
| Deposit (No longer limited to 20\%) | $\$ 26,000$ |
| Incidentals and Set Up Costs - pay for hookups, skirting, <br> loan fees, etc. <br> Does not include MH sales or use tax on the difference if <br> the actual cost exceeds the calculated replacement <br> cost or Motor Vehicle registration fees on MHs | $\$ 26,000$ |
| Original RD | $\$ 200$ |
| Less DP and Incidentals | $\$ 36,000$ |
| RD Remaining <br> Maximum left to spend | $\$ 26,200$ |
|  | $\$ 9,800$ |
| Amount to be Financed | $\$ 00$ |
| Estimated Mortgage Costs <br> Based on displacee's terms (principal and interest) | $\$ 0$ |
| Monthly Space Rental and Utility Costs | $\$ 400$ |
| Total New Housing Costs | $\$ 400$ |
| Less Current Rent and Utilities | $\$ 400$ |
| Monthly Difference | $\$ 16,800$ |
| New Site Rent Differential <br> Difference x 42 months | $\$ 9,800$ |
|  | Due "Spend-to-Get" Requirement <br> Rent Differential to be Paid <br> Cannot pay more than $\$ 9,800 ~ r e m a i n i n g ~$ |

Example 2 - Little or no rent with KFC/Hardship
