ABF – continuing bolt-up of truss segment FSW4-FSW7.

Received phone call from C. Cacace stating that peregrine falcon monitor, Joe Drennan, interested in performing observations this shift. I notified Brian Petersen (ABF) by phone that Joe would be visiting the site this afternoon, ~1300-1430. I also informed M. Modanlou (CT) to be aware that Joe would be on site and requested that Masoud escort him. I spoke with Joe by phone and put him in touch with Masoud, and confirmed with Sumudu (last name?) who works with Courtney that Joe would be escorted by Masoud.
