Michael Flowers
Project Executive
American Bridge/Fluor Enterprises, a JV
375 Burma Road
Oakland, CA 94607

Dear Michael Flowers,

Submittal 168, Rev. 1 - MFSQA for Shanghai Zhenghua Port Machinery Co., LTD

The Department has completed review of Submittal ABF-SUB-000168R01, "MFSQA for Shanghai Zhenghua Port Machinery Co., LTD. (Zhang Jiang)," dated August 6, 2007. The submittal is returned "Approved as Noted." The following are comments from the review:

1. The response to Section A, item 6 indicated that the fabricator possesses a current AISC certification and refers to an Attachment 03. It also acknowledged that the AISC certification does not apply to the Zhang Jiang base nor will any welding work be performed at this facility. Therefore, the Department considers the question to be "Not Applicable" and understands that no welding or repair work will be performed at Zhang Jiang base.
2. Section K, item 2 asks for an organization chart that reflects the fabricator's commitment to quality. The response refers to a QA manual, which contains an organization chart that is a general ZPMC organization chart and does not appear to provide any specific information for the Zhang Jiang base. In item K-16, it states that QA & QC are independent from production; however, it cannot be substantiated in absence of an organization chart specific to the Zhang Jiang base. Please submit this chart to the Department when it is available.

If you have any further questions, please contact Dr. Mazen Wahbeh at (818) 292-0659.

Sincerely,

A handwritten signature in blue ink that reads "Gary Purcell".

GARY PURSELL
Resident Engineer
