Oakland, CA 94607

Dear Michael Flowers,

**Request for Department's MT Information**

With reference to ABF-CAL-LTR-001234, dated September 21, 2009, ABF requested the Department supply any information or professional opinion it may have concerning the possible cause of indications on OBG Deck Section Welds.

In response to ABF's request, on September 23<sup>rd</sup>, Department representatives in China provided ABF with a draft copy of the report entitled "Trip Report - Visit to ZPMC - Shanghai, CN," which was prepared by the Department's welding consultant, Don D. Rager.

Should ABF desire any other specific information, including test results and data, simply request the desired information directly from Department representatives in China.

Sincerely,

A handwritten signature in blue ink that reads "Gary Pursell".
