2002 A.M. CONGESTION MAP
N
W
E
S
Note:
This map is representative of congestion on the indicated freeway segments during peak rush hours on incident-free weekdays.
Weekends, holidays and days in which traffic is influenced by accidents, special events and lane closures are not reflected on this map.
Congestion delay is defined as the difference in travel time between 60 km/h (35 mph) and the lower congested speed.
