State Route 99 (SR-99) serves traffic within Merced County, including local motorists, commuters and long distance travelers. Merced County is an agricultural hub and one of the most prolific counties for the dairy business in California. This stretch of SR-99 highlights both cities and rural towns in the Central Valley. These projects will help to extend the service life of the roadway, improve and rehabilitate the pavement in both directions, help to foster a sustainable transportation system and enhance safety for motorists.

**SR-99 Turlock Pavement Restoration Project**
The SR-99 Turlock Pavement Restoration project will rehabilitate, restore and replace crucial stretches of pavement on the two outside lanes and shoulders for 1.6 miles from Bradbury Road to the Merced/Stanislaus County line. Construction is scheduled to conclude in March 2019.

**SR-99 Livingston Median Widening Projects**
The SR-99 Livingston Median Widening project will widen the roadway from two to three lanes, in both directions, for 9.1 miles from Livingston to Turlock. Construction is scheduled to begin in July 2019. Construction for the southbound project is scheduled to begin in June 2022.

**SR-99 Pavement Rehabilitation Project**
The SR-99 Pavement Rehabilitation project will include resurfacing and improving pavement for 3.8 miles in and near the City of Atwater in Merced County. Construction is scheduled to begin in Spring 2020.

**SR-99 Merced Roadway Rehab Project**
The SR-99 Merced Roadway Rehab project focuses on replacing pavement throughout the City of Merced along SR-99. This 4.9 mile project stretches from south of Childs Avenue to north of Franklin Road in Merced. Construction is scheduled to begin in May 2021.
