## EXPANDING THE HIGHWAY

Caltrans proposes to widen State Route 98 (SR-98) from two to four lanes from Dogwood Road to west of Ollie Avenue, and from four to six lanes from Ollie Avenue to State Route 111. Project limits were extended to the west as required from Traffic studies that took into account planned growth in the area. Construction will include widening and signalizing a half-dozen intersections.

## SECURING DOLLARS

The estimated total cost of the project is $75.9 million broken down in the following phases (see map on the back of page):

| | |
|---|---|
| Phase 1A | $31 million |
| Phase 1B | $12.9 million |
| Phase 1C1 | $4 million |
| Phase 1C2 | $9 million |
| Phase 2 | $19 million |

Phase 1C1 and 1B are fully funded from federal, state and local sources.

Funding is needed for the remaining phases.

## WHAT'S AHEAD?

Phases 1B and 1C1 are in the Design phase. Phase 1B is scheduled to begin construction late 2016. Construction on the other phases will be scheduled when funding is available.
