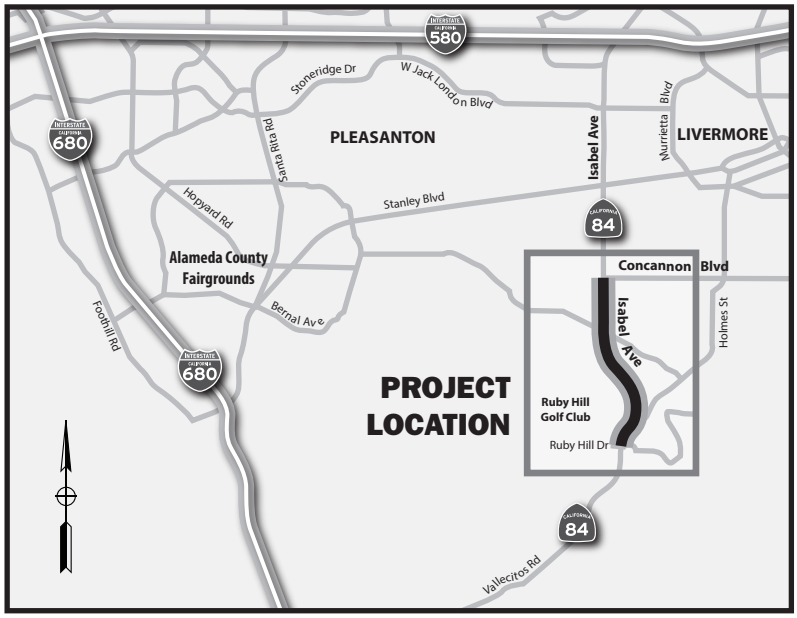
State Route 84 Expressway Widening

PROJECT DESCRIPTION

Caltrans will widen a 2.4 mile section of northbound and southbound State Route 84 (Isabel Avenue) from two lanes to four lanes and rehabilitate pavement to improve State Route 84 as a regional connection between I-580 and I-680 in Alameda County near the city of Livermore. The project limits are from Ruby Hills Drive to north of Concannon Blvd.



WHAT TO EXPECT

Motorists may encounter temporary detours, intermittent lane closures, and increased heavy construction equipment in the area during the work. Caltrans will provide the public with specific detour locations and times as they become available. Motorists should expect intermittent lane closures night and day. All work is weather permitting.

PROJECT SCHEDULE

The project is tentatively scheduled to start construction in early 2016 and to be completed in 2018.

PROJECT UPDATES

Stationary mounted signs and changeable message signs will be strategically placed to provide information regarding State Route-84 closures and detours.
