

Public Notice

Announcement of Public Scoping Meeting Changes Proposed for Bridge on State Route 9

WHAT'S BEING PLANNED

CALTRANS (California Department of Transportation) is proposing to address seismic concerns for the Saratoga Creek Bridge on State Route 9 in Santa Clara County between Sanborn Road and Deer Path Road. CALTRANS is issuing this notice to advise the public that a draft environmental impact report, as required under the California Environmental Quality Act, and a draft environmental assessment, as required under the National Environmental Policy Act, will be prepared for this project. The proposed work will encroach upon waters of the U.S. The project is being evaluated to determine if there are any practical alternatives and that all practical measures are taken to minimize harm to waters of the U.S. The proposed work may have an effect on historic properties eligible for the National Register of Historic Places. CALTRANS is evaluating alternatives to determine if the project can avoid adversely affecting the property or, if not, if adequate mitigation measures can be incorporated into the project plans.

WHY THIS AD

A scoping meeting will be held to give you an opportunity to provide input on the range of alternatives and studies being performed to assess environmental impacts for the proposed project.

WHAT'S AVAILABLE

Information on the proposed project will be made available for review on the CALTRANS website at www.dot.ca.gov/d4/9saratogacreekbridge/ or through attendance of the public scoping meeting.
