**FOR IMMEDIATE RELEASE**

## **GREEN VALLEY ROAD-FAIRFIELD/INTERSTATE-80 OVERCROSSING Ramps Reopened Ahead of Schedule Watch for New Approach Lane Configurations**

**SOLANO COUNTY** – The California Department of Transportation (Caltrans) and its project partner the Solano Transportation Authority (STA) have reopened all the on and off-ramps at eastbound Interstate-80 (I-80) and Green Valley Road in the City of Fairfield in Solano County ahead of schedule.

The Green Valley Road off-ramp from eastbound I-80, the onramp from Green Valley Road onto eastbound I-80 and southbound I-680 were reopened at approximately 6:18 AM Monday, May 23. The closure allowed crews to complete construction of a permanent roadway connection from the eastbound I-80 Green Valley Road off-ramp to the new Green Valley Road overcrossing above eastbound and westbound I-80. This is a major milestone in the construction of Package 1 of the I-80/I-680/SR-12 Interchange Project.

**\*\*Motorists are advised to drive with caution and watch for new traffic lanes and temporary traffic signal lights near the intersection of Green Valley Road and Business Center Drive.**

**\*\*Starting Monday-May 23**

**New Lane Configuration on approaches to new Green Valley Road/I-80 Overcrossing**

Starting Monday May 23, motorists are advised to watch for new lane configurations on southbound Green Valley Road and westbound Business Center Drive near the Green Valley Road/Business Center Drive intersection.

### **Southbound Green Valley Road**

Motorists are advised that the existing middle traffic lane on southbound Green Valley Road just north of Business Center Drive will be closed until fall 2016. Two existing traffic lanes will remain open on southbound Green Valley Road.

**Eastbound Business Center Drive**

**BE WORK ZONE ALERT**

**MOVE  
OVER**

# TRAFFIC ADVISORY

The existing far left lane of westbound Business Center Drive just east of Green Valley Road will be closed until fall 2016. Motorists traveling from eastbound Business Center Drive to southbound Green Valley Road will make their left turn from one of two remaining traffic lanes on eastbound Business Center Drive.

## Project Benefits

With the completion of this weekend's work, motorists are now able to exit eastbound I-80 at Green Valley Road again, and for the first time travel northbound and southbound on the new Green Valley Road overcrossing above I-80. The new overcrossing also includes new northbound and southbound traffic lanes, a new sidewalk, and a new bicycle lane.

## Additional Work to Come

Motorists should expect delays through the construction zone, watch for temporary traffic lanes, temporary traffic signal lights and heavy equipment as additional project work continues.

Crews will now also begin permanently shifting all traffic onto the new Green Valley Road/I-80 overcrossing, demolishing the old Green Valley Road/I-80 overcrossing, and later this year begin shifting traffic on westbound I-80 in preparation of the completion of the new connector structure from westbound I-80 to westbound State Route 12 (SR-12).
