

Niles Canyon Safety Improvement Project

(Short-Term Improvements)

Project Scope of Work:

Implement safety improvements at spot locations along the State Route 84 Corridor between State Route 238 (Mission Boulevard) and I-680. Scope of work includes:

- Install roadside and metal beam guard rail delineators
- Install bridge railing delineators
- Install High Friction Surface Treatment
- Install median and shoulder rumble strips
- Install reflective dots
- Install optical bars
- Install sharrows (shared lanes bicycle arrows)
- Install object markers
- Construct left-turn refuge at Palomares Road

Project Status:

Design of project is complete.

Construction contract to be advertised late 2015.

Schedule:

- Start construction Spring 2016
- End construction Fall 2016
