

REVISED PUBLIC NOTICE

**Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (RDEIR/SDEIS)
Available for the Interstate 710 (I-710) Corridor Project
Announcement of Public Hearings**

WHAT IS BEING PLANNED?

The California Department of Transportation (Caltrans), in cooperation with the Los Angeles County Metropolitan Transportation Authority (Metro), the Gateway Cities Council of Governments, the Southern California Association of Governments, the Ports of Los Angeles and Long Beach, and the Interstate 5 Joint Powers Authority, are proposing to improve Interstate 710 (I-710) in Los Angeles County between Ocean Blvd. and State Route 60 (SR-60). Previously, a Draft EIR/EIS was released for public comment in 2012. Based on the comments received and new information, a new set of alternatives was developed and has been analyzed in the RDEIR/SDEIS. The alternatives studied in the RDEIR/SDEIS include Alternative 1 (No Build), Alternative 5C (Modernization of I-710 Freeway), and Alternative 7 (Modernization and Addition of a Clean-Emission Freight Corridor). All build alternatives proposed also include programmatic elements, including a zero emission/near zero emission truck deployment program, expanded transit services, and a community health benefit program.

WHY THIS NOTICE?

Caltrans has studied the potential effects this project may have on the environment. The study that explains these findings is called a Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (RDEIR/SDEIS) which has recently been approved for public circulation.
