FOR IMMEDIATE RELEASE

Late Night Lane Closures on Ventura Freeway (US 101) for Pavement Rehabilitation

LOS ANGELES – The California Department of Transportation (Caltrans) will reduce lanes and close ramps on US 101 to install pre-cast concrete slabs, repave lanes, and install new guardrail Tuesday, November 8 to Wednesday, November 9. Motorists should **expect delays** and consider alternate routes. Closures are subject to change.

Lane closures will occur at the following locations:

- One lane closed on southbound US 101 from White Oaks to Hayvenhurst, 9 p.m. to 6 a.m.
- Up to three lanes closed on northbound US 101 from Reseda to Winnetka, 10 p.m. to 6 a.m.
- No weekend closures due to Veterans Day.

The pavement on north- and southbound US 101, connectors, and ramps will be rehabilitated by using rubberized hot mix asphalt, Portland concrete cement, and pre-cast concrete slabs. The existing metal beam guardrail (metal and wood barriers) will also be replaced to enhance safety.

This \$62 million contract was awarded to Myers and Sons Construction, LP of Sacramento, California. The project is funded by the State Highway Operation and Protection Program (SHOPP). The project is expected to finish in Summer 2017.

Remember to Be Work Zone Alert. The CHP will be on duty.
