4-10 DIRECTOR’S DEED MAPS

Director’s Deed Maps are used to depict State land slated for disposal. Director’s Deed Maps are submitted to the California Transportation Commission (CTC) to provide the Commissioners information with respect to properties the Department seeks to convey to other parties, either by direct sales (including exchanges and contract obligations) or competitive public sale (auctions).

Director’s Deed Maps should contain enough information to clearly show the property and its relationship to its surroundings, including transportation facilities and adjacent properties; however, they should not contain engineering data likely to be unfamiliar or confusing to a layperson. Director’s Deed Maps are not intended to represent a survey of the property or be included as part of the Legal Description.

The mapping will be produced on a 8.5” x 11” format.
