CALTRANS HOSTS PUBLIC WORKSHOPS AS PART OF HIGHWAY 17 ACCESS MANAGEMENT PLAN IN JUNE

CENTRAL COAST--Caltrans and its study partners are hosting a round of public workshops as part of the Highway 17 Access Management Plan (AMP) in June, Caltrans officials have announced.

These workshops will introduce the first draft of conceptual-level projects developed within the plan. These concepts were developed based on a corridor performance assessment as well as public and partner input.

They have been developed to address multiple issues and range from small scale to large scale improvements. The workshops are intended as a forum to present the concepts to the community for discussion and feedback. The Access Management Plan is a planning-level study to document unfunded needs only and does not initiate specific projects. Below are the dates and locations for the three workshops:

Scotts Valley:

Thursday, June 2, 2016
6:00-8:00 pm
Scotts Valley Senior Center, Main Room
370 Kings Village Road

Happy Valley:

Thursday, June 9, 2016
6:00-8:00 pm
Happy Valley Conference Center
2159 Branciforte Drive

Summit/Loma Prieta:

Tuesday, June 14, 2016
6:00-8:00 pm
Loma Prieta Elementary School, Forum Room
23800 Summit Road
Los Gatos, CA

The Highway 17 AMP is being developed to address the long range safety, mobility and access needs for the corridor.

We strongly encourage the public to attend these workshops and have their say about this important study.

For more information on these workshops, you may contact Kelly McClendon, Caltrans 5 District Transportation Planner at: Kelly.mcclendon@dot.ca.gov.
