

Route 129/Carlton Rd. Intersection Improvements

EA # 05-1F350

SCr_129_3.0/3.5

District 5

Summer 2018

Project Description

Realign Carlton Road, construct new intersection, and construct left-turn lane on Route 129.

Location Description

Near Watsonville from 0.3 miles West to 0.2 miles East of Carlton Road.

Project Features

- Widen Route 129 roadbed
- Construct left-turn lane on eastbound Route 129
- Realign Carlton Road
- Construct new intersection at Carlton Road

Purpose & Need

The purpose of this project is to reduce the number and severity of collisions at this intersection. The proposed project location is experiencing a pattern of left-turn and rear-end collisions.

Project Funding

This is a State Highway Operation and Protection Program (SHOPP) project with an estimated cost of \$2.3 million.

Construction Information

Construction is currently scheduled to begin late August/early September. The contract is for 100 working days.

Working days do not include weekends, holidays, weather days or other unanticipated work that arises such as utilities. We anticipate construction completion by Spring of 2019, weather permitting.

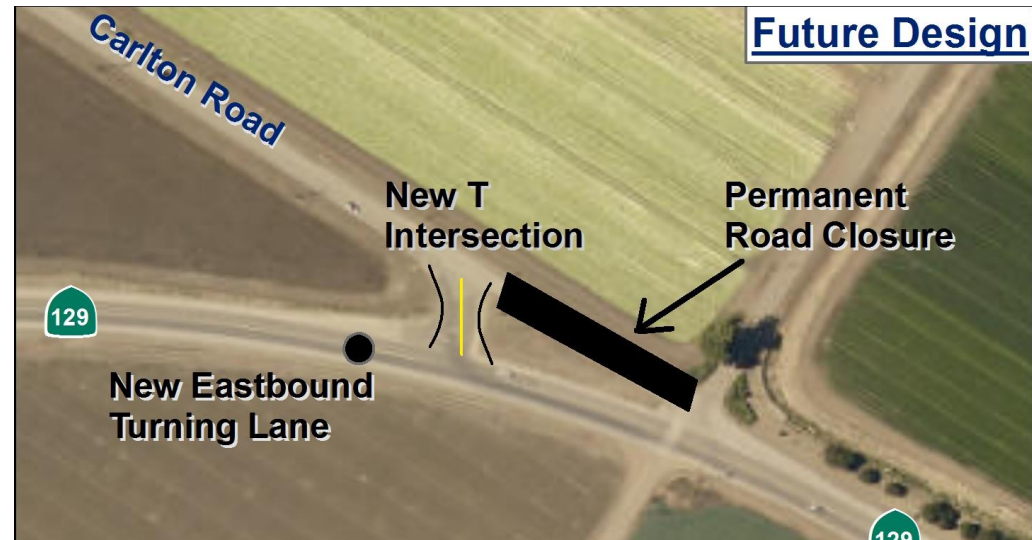

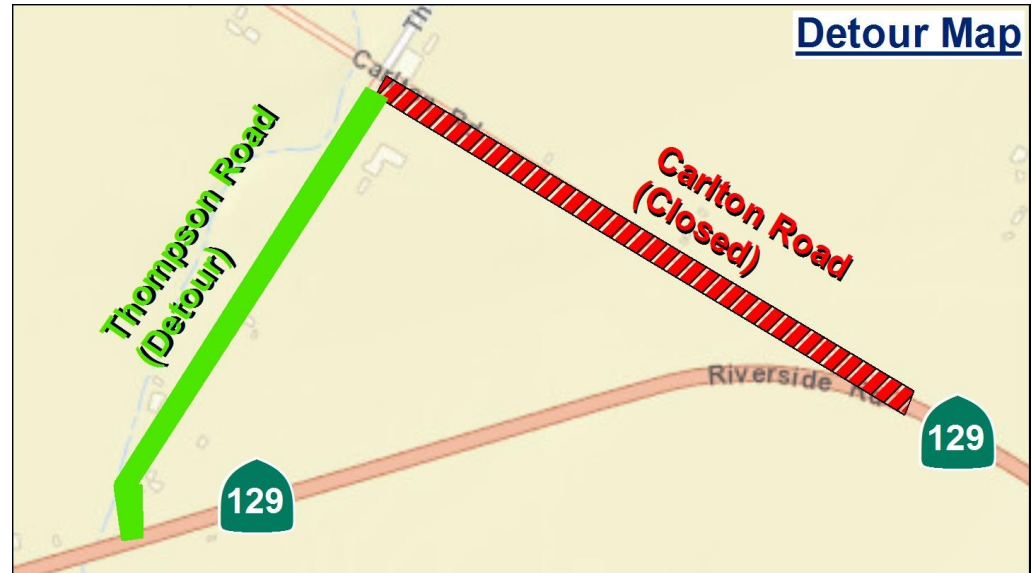

Route 129 will maintain one lane of traffic in each direction except for periodic closures. Carlton Road will be closed 24 hours a day during the construction period with Thompson Road being used as a detour.

The project will be constructed by Granite Rock out of Watsonville.

Project Website

Specific details on the detour schedule are pending. Please monitor the project website for future updates.
