Dear Tim,

Regarding the Highway 1 chip seal application north of Cambria –
Thank you for listening to bicyclists and taking our concerns seriously.
Thank you for asking UC Davis to conduct independent tests.
Thank you for supporting the testing process with District resources.
Thank you for including local cyclists in the testing process.
Thank you for taking corrective action to make the pavement smoother on Highway 1.
And thank you for setting a new statewide standard for pavement smoothness.

Your receptive response to legitimate complaints from local highway users exemplifies the highest standard of community partnership. We appreciate your working with us and we look forward to more of the same in the future.

Sincerely,

Robert Fuller Davis
President
