Dear Mr. Mellinger,

On behalf of the Hermon Advance Team and all of us who now regularly enjoy the beauty of the much-welcomed new landscaping at the northbound Avenue 60 off ramp of the 110 Freeway (Arroyo Seco Parkway) – we THANK YOU.

What started as a simple phone call to Rick Enriquez last spring -- asking what we could do to beautify that weed patch – blossomed into an entryway to Hermon that we are very proud of, due to your terrific leadership and Mike McKain's generous help. All three of you gentlemen were wonderful to work with and have gone out of your way to help a community trying to rediscover its past beauty.

Thank you for being so responsive and involved in making communities better.

Sincerely,

Wendi Riser, Coordinator
