Company Profile of Analyzer International Inc.

Analyzer International Inc. started its construction inspection and management services in July 2011 when it began its first Caltrans On-call inspection contract in District 7 in southern California. It is a small UDBE and registered SBE in California. Its main business focus is in bridge construction inspection providing services as structure representatives, assistant structure representatives and inspectors. However, Analyzer also provides inspection support services in construction of roadway and civil works.

Eng Yeong is the principal of Analyzer. Since 1990, Yeong has worked as a Caltrans consultant in various capacities of structure representative, assistant structure representative and inspector in District 4, 5, 7 and 12, and has gained reputation and recognition for excellent and reliable work among Caltrans seniors and area construction managers. In his career, Yeong has worked for various big engineering firms such as Sverdrup (now Jacobs), HNTB and TY Lin, in both design and construction management work, primarily based on Caltrans highway and bridge specifications. He has 20 years of construction management experience as consultant in Caltrans highway and bridge projects. His experience and expertise includes claims analysis and resolution, schedule analysis, submittal reviews, contract change orders, weekly statement of working days and general structure and bridge inspection work. This gives him the ability to effectively recruit, deploy, train and support his field personnel in fulfilling the required scope of work for construction management and inspection. By virtue of his knowledge of Caltrans construction procedures, Yeong and his field personnel will be more responsive to the needs and goals of their client agencies in delivering the project on time, under budget and with ensured quality. Currently, Analyzer has about 8 engineers working on various projects in Caltrans District 4, 6, 7 and 12.

Currently, Analyzer is a subconsultant to AECOM, Hanna Group and Railpros.

Analyzer International is involved in the following projects:

1. Rte 5/170 Interchange Project, Pacoima, California, as assistant structure representative for Caltrans.
2. Rte 110/10 HOV Project, Los Angeles, California, as structure inspector for Caltrans.
3. Rice/101 Interchange Project, Oxnard, California, as structure inspector for City of Oxnard.
4. Rte 5 HOV Widening in Burbank and Glendale, California, as Assistant Structure Representative and Inspector for Caltrans.
5. Wendy Drive, Thousand Oaks, California, as structure and roadway inspector.
6. Deck Treatment and Polyster Overlay projects in District 6 as structure inspector for Caltrans.
7. La Conchita Right Away Project in Ventura County, as structure representative for Caltrans.
8. Deck Treatment and Polyster Overlay projects in Ventura County as structure representative for Caltrans.
9. 405 Centinela Widening Project, as structure inspector for Caltrans.
10. Rte 5 HOV Widening in Burbank and Glendale as roadway inspector for Caltrans
11. District 4 Overhead Sign Structure contract as structure representative
12. Rte 580 Widening in Livermore as structure inspector.
