Brief Company History

Andel Engineering Company is a Civil Engineering and Surveying Company incorporated in 1964 in Newhall, California. Founding personnel of Andel were practicing Civil Engineering in Newhall in 1961.

Since 1964, Andel has been a Civil Engineering and Consulting firm that specializes in land site planning, designing and surveying for Residential, Commercial, Industrial, and Public projects. Over the years, Andel has performed Civil Engineering services for clients in the public and private sectors, including Government, Education, Industry and Commerce.

A highly competitive, qualified staff is maintained to perform professional engineering and surveying services. The principal engineers have a broad range of expertise in the fields of Hydrology, Hydraulics, Geometrics, Grading, Streets and Highways.

In this Santa Clarita Valley, many of the first and subsequent parts of our infrastructure were designed by Andel and its Founding Engineer. The first major grading operations, the first public sewers, the first major storm drains (Channelizing the Santa Clara River, the Bouquet Canyon Wash, the Channel that protects Canyon High School), many new roads and major highways and the first major subdivision were designs of Andel and its Founding Engineer. Andel was the Civil Engineer for the Fairfax Station of the Los Angeles Metrorail and its related parking lots, utilities and utility relocations.

Edward L. Bolden, Jr. is the sole owner of all of the Andel stocks. Edward is African American.
