FIRM INFORMATION:

P.A. ARCA ENGINEERING, INC. (AEI) was established in 1981 and incorporated in May 1984 with an explicit goal of providing services with professional staff representing a wide range of skills and experience. We believe that our planning, engineering and consulting services must have this diverse orientation in order to understand the complex strategic and design issues facing our clients. We are certified as Minority Business Enterprise/ Disadvantaged Business Enterprise (MBE/DBE) under California Unified Certification program (CUCP) and the Community Business Enterprise (CBE) Program of County of Los Angeles. We are also certified MBE under Supplier Clearinghouse for the Utility Supplier Diversity Program of the California Public Utilities Commission (CPUC).

AEI provides surveying, planning, and civil engineering design services in a fully integrated manner to governmental and institutional clients.

Our Firm's background comprises 32 years of active practice in the field of Surveying and Civil Works Design of infrastructures such as school grounds, roads, storm drain systems, sanitary sewer systems and water supply systems; extensive exposure in the Development Planning of major Industrial, Commercial, Residential, and School sites. We also are capable of Structural Design of low to medium rise buildings. Experience includes construction supervision and management, specifications writing, bid documentation, quantity and cost estimating, CAD drafting, and coordination with government agencies, utility companies, engineers, architects and contractors.

AEI has been providing Surveying and Civil Engineering Services for over 25 years to schools; municipalities such as City of Carson, City of Compton, City of Los Angeles, and County of Los Angeles; and federal agencies like Federal Aviation Administration (FAA). The wealth of knowledge, through experience and continuing education, gives our staff the tools to design and solve routine and unique problems that can occur during the design and construction processes. AEI maintains its exceptional reputation in the industry by providing high quality technical expertise and by meeting tough work schedules and budget goals. This is achieved as a result of our methodical project management approach and its ability to effectively utilize qualified personnel for project management guidance.

Our office, located in Carson, CA, is fully staffed with engineers, surveyors and office support personnel.
