A **Corridor Management Plan (CMP)** is being prepared for this designated National Scenic Byway to “Link how you will get to the places you want to go.” A series of meetings is planned to inform and solicit input from local neighborhoods and stakeholders on the needs and possibilities for improvements/enhancements in the corridor. Topics of interest include transportation (pedestrian, bicycle, bus, rail and auto), historic and cultural attractions, neighborhoods and business districts, nature/open space and recreation and tourism.
