

POMONA FREEWAY (SR-60) PAVEMENT REHABILITATION PROJECT

The Project

The Pomona Freeway (SR-60) is a major thoroughfare, serving commuters between Los Angeles and San Bernardino and Riverside counties. As a result of heavy use, the road has experienced extensive wear. SR-60 is being rehabilitated in both directions, between the San Gabriel River Freeway (I-605) and Orange Freeway (SR-57). Along with pavement work, traffic loops installation and striping will take place within the project's boundaries

Benefits

The new surface will provide a smoother, safer drive for motorists and improve traffic flow and goods movement. Pavement restoration will reduce time required for maintenance and minimize the need for lane closures

Schedule

Construction began in 2012 and is anticipated to complete fall, 2014.

Cost

\$121.5 million
