FOR IMMEDIATE RELEASE

UPDATE

Angeles Crest Highway (SR-2) Open

LA CANADA-FLINTRIDGE – The California Department of Transportation (Caltrans) announces that SR-2 from La Canada-Flintridge to Wrightwood opened to the public today at 5 a.m.

Caltrans closed SR-2 to the public to repair the damage caused by the Station fire.

“Caltrans road crews and contractors have worked day and night to repair the damages caused by the Station fire,” said Dan Freeman, District 7’s deputy district director of maintenance. “Road crews cleared debris basins and storm drains, re-striping the road, replace damaged or destroyed guardrail, and take several preventative measures to protect the road from large landslides,” he said.

“Caltrans has been working in collaboration with the Los Angeles County Department of Public Works, U.S. Forest Service, California Highway Patrol, and several other entities to ensure that the repairs to the Angeles Crest Highway are safe and seamless,” said Freeman.
