**FOR IMMEDIATE RELEASE**

## LANE CLOSURES

### **Northbound and Southbound Long Beach Freeway (Interstate 710) Between State Route 105 and Firestone Boulevard**

**LYNWOOD AND SOUTH GATE:** The California Department of Transportation (Caltrans) will close the following lanes on northbound and southbound Long Beach Freeway (I-710) from the Glenn Anderson Freeway (State Route 105) to Firestone Boulevard as part of the I-710 Long Life Pavement Rehabilitation strategy from the San Diego Freeway (I-405) to the San Bernardino Freeway (I-10). Closures are subject to change.

The schedule is as follows:

**Nightly, Wednesday, July 8 and Thursday, July 9:**

8 p.m. to 6 a.m. - up to two lanes on northbound and southbound I-710 from Firestone Boulevard to SR-105.

Work for this \$50 million project involves rehabilitating 2.3 miles of aging pavement to provide a roadway with several decades of service life, improved pavement performance and a smoother ride for the traveling public. The existing pavement is being replaced with Long Life Asphalt Concrete (also known as 'rubberized hot mix asphalt'). The existing median barriers will be upgraded to concrete barriers and roadway widening will occur where possible to provide standard lanes and shoulder widths.

The contractor for this project is Sully-Miller Contracting, Co., based in Anaheim, Ca. Estimated completion date is spring 2011.

More information on the I-710 Long Life Pavement Rehabilitation Project, concurrently in construction between I-405 and SR-91, is available on the Caltrans District 7 website at [www.dot.ca.gov/dist07](http://www.dot.ca.gov/dist07)
