

CALTRANS COMMUTER ALERT

Date: June 5, 2009
District: District 7, Los Angeles and Ventura Counties
Contact: Kelly Markham
Phone: (213) 897-0303

WHAT: Eastbound San Bernardino Freeway (I-10) lane closures

WHEN: Through Monday, June 8, at noon

WHERE: Eastbound I-10 from Atlantic Boulevard to Garfield Avenue in Alhambra

DETAILS

The California Department of Transportation (Caltrans) has closed one lane of the eastbound San Bernardino Freeway (I-10) from Atlantic Boulevard to Garfield Avenue in Alhambra for construction. The lane is expected to remain closed until Monday, June 8, at noon.

At 10 p.m. tonight, June 5, Caltrans will close two additional lanes at the same location, including the High Occupancy Vehicle (HOV) lane. The lanes are expected to remain closed until Monday, June 8, at noon. Caltrans advises motorists to expect delays and avoid the area if possible.

The work is part of the San Bernardino Freeway Restoration Project, which involves resurfacing the I-10 in both directions between the Golden State Freeway (I-5) and the San Gabriel River Freeway (I-605). Work includes replacement of damaged slabs, upgrading bridge rail, adding shoulders, and realigning ramps within the project limits. The \$165 million project is scheduled for completion in spring 2011.
