LANDSLIDE CLOSSES WESTBOUND I-10 CONNECTOR TO NORTHBOUND SR-57

SAN DIMAS – The California Department of Transportation (Caltrans) has closed the westbound San Bernardino Freeway (I-10) connector to northbound State Route 57 due to an early morning landslide which has covered a portion of the road with mud and rocks. The northbound State Route 71 transition to northbound SR-57 also is closed.

Both the slide and the material covering the roadway are still in motion. Until the area stabilizes, Caltrans crews cannot access it, although geotechnical engineers are currently on site.

The roadways will remain closed until further notice. An update will be released as additional information becomes available.
