PARK 101 INFORMATIONAL MEETING SCHEDULED

LOS ANGELES – An informational meeting to discuss Park 101, a concept to cap the Hollywood Freeway (U.S. 101) in downtown Los Angeles with a park, will take place on Thursday, May 13, from 4 p.m. to 6 p.m. at the California Department of Transportation (Caltrans) building, Conference Room and Lobby, 100 S. Main Street, Los Angeles, 90012.

Caltrans is hosting the initial community meeting/open house for the Park 101 District Feasibility Study, which includes developing an economic strategy and identifying new opportunities for retail, commercial, and residential space. The Park 101 District would include construction to cover over US-101 between Grand Avenue and Alameda Street, street and open space improvements in the surrounding blocks, and linkage to the Los Angeles River.

The public is invited to participate in a discussion regarding project alternatives, connections to High Speed Rail, and the economic development potential as a part of the overall district planning effort.

For those unable to attend the meeting, or you would like to receive electronic project updates, please contact ginny@therobertgroup.com, or leave a message at (323)669.7654.
