

## Klamath River Bridge Hinge Replacement

### FACT SHEET

#### The Project

This project proposes to replace three hinges on the Klamath River Bridge.

#### Benefits

A hinge is a vital part of a bridge that allows it to expand and contract with changes in temperature. This project is intended to extend the service life of the structure.

#### Project Status

The project is currently in the design phase.

#### Project Cost

Total project cost is approximately \$6.5 million.

#### Project Schedule

Begin Construction: Summer 2013

Project Completion: Fall 2015
