## FOR IMMEDIATE RELEASE

### Collier Rest Area on Route 199 Reopens

Caltrans is pleased to announce that the Collier Rest area on Route 199 in Del Norte County has reopened. It was closed for approximately 6 months for major rehabilitation. The interior of the restroom facilities have been completely rebuilt, and the exterior has been re-roofed and re-painted. The wooden picnic tables were replaced with modern concrete tables that are very sturdy and easier to maintain. The facility now meets current standards to comply with the Americans with Disabilities Act (ADA).

The contractor, West Construction of Redding, completed the project within budget and slightly ahead of schedule.
