NEW SIGNAL AT FIFTH AND L STREETS IN EUREKA

Eureka – Caltrans announced today that the project to install a new signal at Fifth and L Streets in Eureka is complete. The signal is scheduled to be turned on Wednesday, November 14. Caltrans reminds motorists to drive with caution and courtesy, especially while the public becomes accustomed to the new signal.

This signal will reduce collisions and increase safety for pedestrians. This project will also create gaps in traffic north of L Street, which will help pedestrians and cross traffic.

Caltrans worked with the City of Eureka to determine the most appropriate location for the new Fifth Street signal. L Street was favored because it would create a safer path of travel for pedestrians and motorists.
