CALTRANS ANNOUNCES A PROJECT TO IMPROVE ROUTE 101/211 INTERSECTION AT SINGLEY ROAD

Eureka – Caltrans announced today that a project to improve the intersection of Routes 101 and 211 at Singley Road, including the Route 101 southbound Fernbridge off ramp, will begin on Tuesday, May 13.

Work will begin on the Route 101 southbound Fernbridge off ramp. The ramp will be closed Monday through Thursday from 7:00 a.m. to 5:00 p.m., and on Fridays from 7:00 a.m. to noon. Motorists are advised to use an alternate route.

This project will realign the intersection, creating a more standard configuration and reducing driver confusion. In addition, a left turn pocket will be created for northbound Route 101 traffic exiting onto Singley Road. This project will increase safety at this location, and is expected to be complete by the end of July.
