

# EAST SONORA

## State Route 108 Bypass

### INFORMATION SHEET

State Route 108 E. Sonora Bypass, Stage II Project

March 25, 2008

**Project Purpose:** The purpose of the project is to reduce local traffic congestion in East Sonora and for inter-regional traffic on State Route 108.

**Project Background:** Stage I of the East Sonora Bypass was completed in 2002 from the Sanguinetti Overhead to 0.3 mile west of Peaceful Oak Road (Post Mile R1.9/R4.0). Stage II would construct a 2-lane expressway from 0.3 miles west of Peaceful Oak Road to just west of Via Este Road (Post Mile R4.0/R6.0). Stage III would complete construction of the 2-lane expressway on a new alignment to the existing 4-lane section of Highway 108 near Sunshine Road (Post Mile R6.9).

**Project Description:** Stage II of the East Sonora Bypass would construct the full interchange at Peaceful Oak/Standard Roads, a grade separation over Mono Way (existing Highway 108, Post Mile R5.1), and a temporary at-grade "T" intersection connecting Mono Way to the new expressway at Post Mile R5.6. The 2-lane expressway would continue as a temporary connection and would merge with the existing Highway 108 near Via Este Road (Post Mile R6.0). A frontage road connecting existing Highway 108 with both Seaborn Road and Waif Mine Road would also be constructed to provide access to parcels that would be cut-off by the new alignment.

**Cost:** Approximately \$65,920,000.

**Funding Source:** Corridor Mobility Improvement Account (CMIA), Regional Improvement Program (RIP), and Interregional Improvement Program (IIP).

**Project Timeline:**  
Right of Way Acquisition - March 2008  
Re-evaluation of Environmental Impacts - March 2008  
HQ Final Design for stage II - July 2009  
Ready to List - November 2009  
Begin Construction - Spring 2010  
Completion of Construction - Spring 2012
