

A collection of major rehabilitation work on the State Route 4, Crosstown Freeway in Stockton.

- SR-4 Bridge Deck Treatment
- SR-4 Automated Warning System Installation
- SR-4 Crosstown Viaduct Bridge Repair
- Extreme Maintenance

So far we have completed four of the ten hinges scheduled for improvement. Two in both the eastbound and westbound directions. Our maintenance crews were out again during both daytime and nighttime hours doing crack seal repair and also striping.

Motorists may observe heavier traffic congestion between the hours of 11:00 a.m. and 1:00

p.m. During the eastbound closures, the traffic signal timing for the I-5/Charter Way on and off-ramps, was adjusted to accommodate the additional traffic volume.

Our next weekend closure will be in the eastbound direction and take place August 5, 2016 to August 8, 2016.

Scheduled Weekend Closure Dates

Westbound

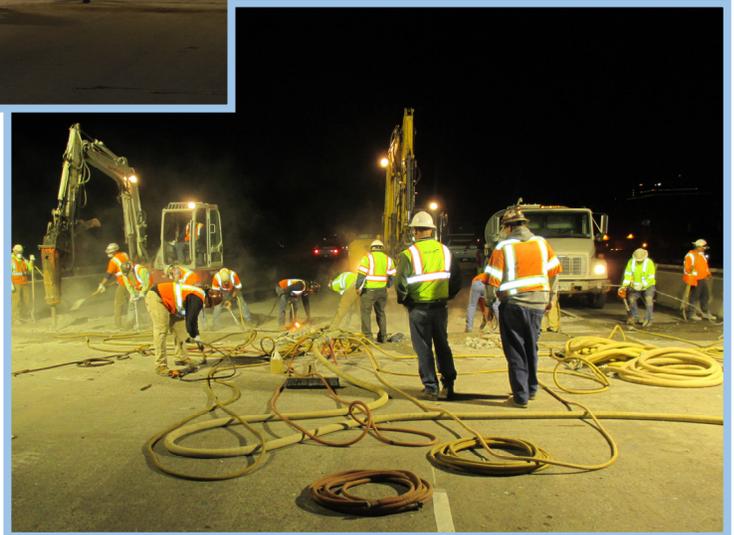

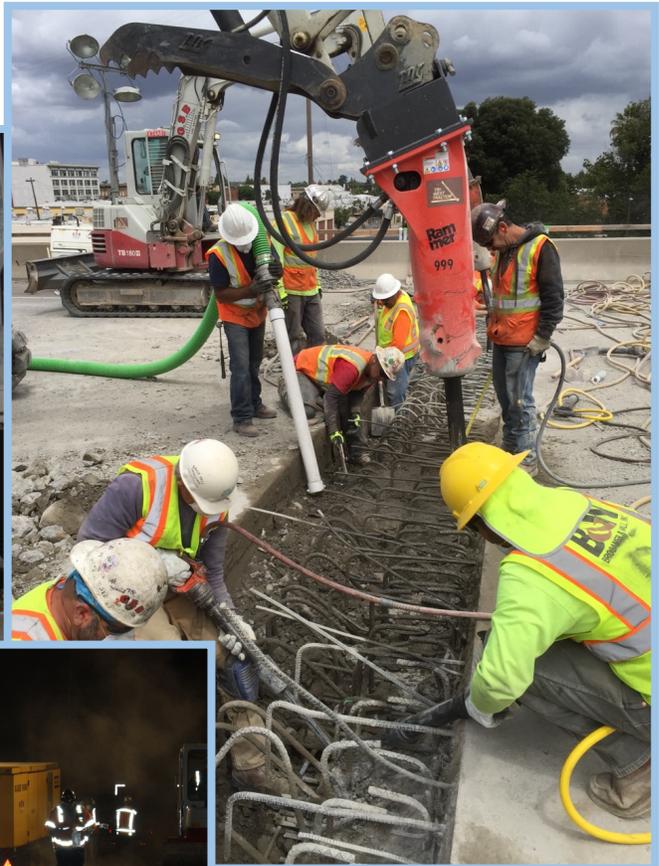

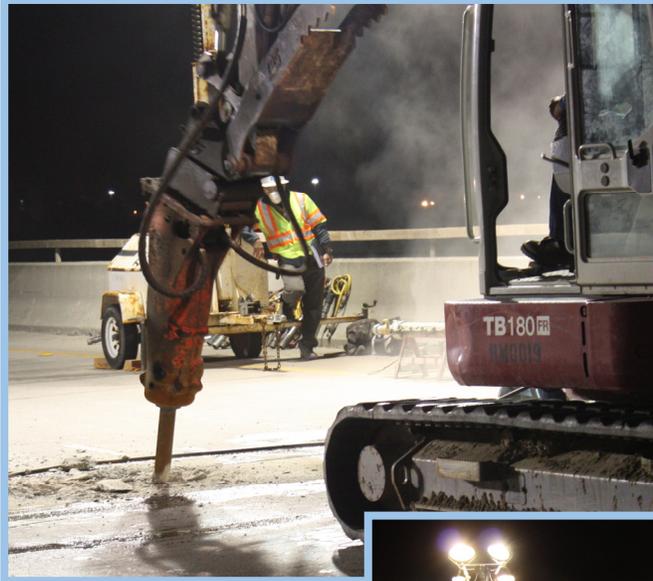

- Friday, August 19—Monday, August 22, 2016
- Friday, October 14—Monday, October 17, 2016

Eastbound

- Friday, August 5—Monday, August 8, 2016
- Friday, October 21—October 24, 2016

**This work is scheduled to begin as listed, but is subject to change due to traffic incidents, weather, availability of equipment and/or materials and construction related issues.

Photos From The Big Fix

Caltrans would like to extend our appreciation to motorists and residents for their cooperation during the Big Fix construction improvement project.
