FOR IMMEDIATE RELEASE

CONSTRUCTION ADVISORY
CALTRANS INSTALLING WARNING BEACONS ON STATE ROUTES IN RIVERBANK, ATWATER AND NEAR THE CITY OF MERCED

Stanislaus and Merced counties – The California Department of Transportation (Caltrans) is preparing to begin work on a project that will place flashing warning beacons at three locations: State Route 108 (SR-108) near Eighth Street in Riverbank, at the end of the southbound off-ramp from SR-99 to Applegate Drive in Atwater and SR-140 at Arboleda Drive near the city of Merced.

Work is scheduled to begin the week of March 16, 2015, and is scheduled for completion in late spring. The goal of this project is to provide an improved advance warning for motorists.

All work is scheduled to be done during the day, with minimal impact on traffic. There will be road signs alerting motorists to the presence of crews adjacent to the highway.

This $170,000 project has been awarded to Tim Paxin Pacific Excavation of Elk Grove.

This work is scheduled to begin as listed, but is subject to change due to traffic incidents, weather, availability of equipment and/or materials and construction related issues.
