The California Department of Transportation (Caltrans), its Small Business Council, and the San Diego Association of Governments (SANDAG) have partnered with the American Council of Engineering Consultants, California (ACEC-CA) to create the Calmentor Program. Our Mission is to increase the pool of Architectural & Engineering small businesses in San Diego and Imperial Counties participating in transportation projects! Our Goals:

- ★ Establish a mentoring program that pairs small businesses with large firms;
- ★ Enhance small business operations to achieve their growth potential;
- ★ Create more small business opportunities and provide more meaningful participation on transportation projects;
- ★ Establish an entry point for small firms who desire to do business with Caltrans, SANDAG, and other public agencies and
- ★ Develop business relationships that foster new opportunities for both large and small firms.
