San Diego, CA 92186-5406

Subject: Water Construction Availability for the Brawley By-Pass Project.

This letter is to confirm that water will be available for the construction of the Brawley By-Pass Project.

The procedure for obtaining water is as follows:

1. Contractor needs to come in to Northend Division Office to fill out an application for Temporary Water Use.
2. Contractor will need to indicate the locations where they would like to obtain the water from.
3. Contractor will be responsible for pump installation.
4. The Imperial Irrigation District charges an annual fee of \$375.00 per pump. No additional charge for the quantity used.

Per our conversation by telephone, an amount of approximately 4,000,000 gallons of water will be required for the project from September 2003 to September 2005. Once the permit is approved, IID will guarantee that the contractors will have sufficient water for the construction of the Brawley By-Pass Project.

Please contact me at (760) 351-2518 if you have any questions.

Michael A. Pacheco
Superintendent of Operations
Northend Division
