Dear Mr. Savage:

The City of San Diego verifies that water, in sufficient quantity, is available to perform the work necessary to construct the portion of State Route 56 from Carmel Valley Road to the Camino Ruiz Interchange. That water will be available from any of the existing fire hydrants located in the area, provided a construction meter is obtained from Lester Jennings at (619) 527-7429. If the contractor would like the source of water to be provided from an existing water main, please contact Shahin Moshref at (619) 533-5150.

Sincerely,

Larry Gardner
Water Department Director
