

GUNS INTO MEXICO...

DON'T DO IT!

***If you take weapons
across the border...***

- You will become one of the dozens of U.S. citizens arrested each month for violating Mexico's strict firearm and ammunition law, whether you knew about the law or not;
- You will go to jail and your vehicle will be seized;
- You will be separated from family, friends and your job, and likely suffer substantial financial hardship;
- You will pay court costs and other fees ranging into the tens of thousands of dollars defending yourself;
- You may get up to a 30-year sentence in a Mexican prison if found guilty.

REMEMBER, Once you cross the border with a firearm or ammunition it is too late! Ignorance of this law will not get you leniency from the police officer. You will be arrested and sent to jail!
