

New Access Ramp Changes Way Motorists Exit I-15 Express Lanes

Motorists traveling north on Interstate 15 and the I-15 Express Lanes during the afternoons and weekends will soon see some significant changes in the area near State Route 56/Ted Williams Parkway.

A new access ramp will be opened the week of May 16 that will allow drivers to exit the northbound I-15 Express Lanes into the main lanes of the freeway. Construction crews need to close the current connector that Express Lanes motorists use to access the freeway main lanes to continue construction of the Managed Lanes and a nearby Bus Rapid Transit Center.

The access ramp will be located just north of Poway Road. It will take motorists from the right lane of the northbound I-15 Express Lanes and guide them into a dedicated lane along the median of the freeway. Drivers heading to SR-56/Ted Williams Parkway and Carmel Mountain Road will continue in the left lane to reach their destination.

I-15 Express Lane motorists wanting access to Carmel Mountain Road will be directed to Ted Williams Parkway. Commuters can then access I-15 from the Ted Williams Parkway onramp and exit at Carmel Mountain Road.
